

# ELECTROSTATIC NEBULIZER ELECTRIC KRD-AP14-5E

## APPLICATIONS

Ideal for disinfection in all types of medium and large spaces, indoors and outdoors: schools, gyms, sports centers, swimming pools, bars, restaurants, shopping centers, ports, airports, hotels, hospitals, vehicles, public transport, etc.

## DESCRIPTION

This portable nebulizer, manageable and for continuous use, incorporates a 1400W motor, with adjustable flow rate from 150 to 260 ml per minute, its tank capacity is 4 liters. IN A SIMPLE AND PRACTICAL WAY, it generates an ultrafine spray of disinfectant solution without wetting the treated surfaces.

### Why is it recommended to use electrostatic nebulizers?

These generate a fine electrostatic mist with a high concentration of negatively charged anions. The suspended particles of any space contain viruses and bacteria in the air that are positively charged. By spraying with the anions from the nebulizer, it is possible to neutralize the positive charge of the viruses and bacteria in suspension. By neutralizing its charge, it increases its weight, settling on the ground and surfaces. Combined with the disinfectant chemical solution, we will achieve the neutralization and deactivation of viruses and bacteria in an easy and effective way.

## DESCRIPTION

- Electrostatic nebulizer.
- Ultra Low Volume Spray (ULV).
- Droplet particles with an adjustable diameter of 0-50 µm.
- Regulation of product dosage from 150-260 ml/min.
- 220 V AC 50Hz electrical connection.
- ON-OFF power switch on the control.
- Reliable and durable 1400W high performance motor.
- High efficiency, uniform misting and long range.
- Ease of use, effectiveness and speed.
- 4L tank capacity.
- Electric cable length 10 meters.

Liquid deposit (L)	4
Flow(ml/min)	150 - 260 (regulable)
Diam. particles (µm)	0 - 50 (regulable)
Horizontal Flow(metros)	5 - 10
Vertical Flow(metros)	2 - 4
Tension (V-Hz)	220-50
Engine power (W)	1400
Electric cable (metros)	10
Dimensions (cm)	36x24x43
Weight (Kg)	3,1
<b>P.V.P. € (VAT not included)</b>	<b>265,00</b>
